

Hermes AI - YouTube Beginner's Guide

Top Creators and Videos for Getting Started

Which Hermes Do You Have?

There are two distinct things called Hermes AI - make sure you are looking at the right one before diving in:

Option A - NousResearch Hermes model: An LLM (e.g. Hermes 3) running inside Ollama. You chat with it via Open WebUI.

Option B - Hermes Agent: An open-source AI orchestrator/agent framework by NousResearch. Adds memory, scheduling, and self-improvement.

Hermes Agent (Orchestrator) - YouTube Videos
